**RE: Fort Worth Montessori School**

To Whom It May Concern,

I am delighted to provide this letter of reference for Fort Worth Montessori School. My daughter attended the school from May of 2008, when she was 18 months old, until she graduated from their preschool program in May of 2012. As an administrator in a local private school, I would not hesitate to recommend this program for other pre-school children.

As a family, we knew that we wanted a Montessori program, primarily for its foundations in problem-solving, independence, and actionable learning. As an educator myself, I felt strongly that these foundations would serve my child well in future educational settings. As such, we thoroughly researched five local Montessori programs before making our decision to enroll at Fort Worth Montessori. In all honesty, no other programs came close to offering the combination of programming, joyousness, accountability, and clear sense of purpose that we saw at FWMS.

From our first meeting with Tsianina Beardsley, owner and director, we knew that this program would be the best fit for our daughter. For three and a half years, our daughter experienced excellent teaching, hands-on learning, and a variety of enrichment opportunities that were engaging, productive, and fun! Her teachers worked with us to encourage her confidence in her abilities as well as an understanding of choices and competencies and learning as a process. Because of this love of learning that was instilled during her years at Fort Worth Montessori, she was accepted into our two first-choice private schools. As we finish her kindergarten year at TVS, our daughter has continued to flourish and we attribute this to the educational roots that were cultivated and nurtured at Fort Worth Montessori School.

Most sincerely,
